MAY START ON NEW SEWER IN WEEK OR TWO

Government Minister Had
Not Been Informed
Of Delay

EXPRESSED SURPRISE Mayor Mike Aird For Perma- nent Road to Georgetown

Mayor Mike Aird, who was a prominent member of the department of roads, expressed his surprise at the delay in the construction of the new sewer from the Ontario side for the fact that the city engineers would be one way or another a day ahead.

"The scheme was approved by the city council in 1914, and the department of public works started this year and the work had not been started," said Mayor Aird, who said it was possible the sewer would be put into operation by the end of the year.

Mayor Mike Aird said that the city council had been informed by the department of roads that the sewer would be put into operation by the end of the year.

Sunlight for your Washing Machine

A WASHING machine is made to wash your clothes without rubbing or boiling—and it succeeds just in proportion to the value of the soap you use.
Sunlight Soap dissolves quickly and completely in hot water, works up into an abundant suds. This is very necessary so that its rich cleansing ingredients may reach through and through the meshes of the clothes and dissolve the dirt and soil spots. Then, when the clothes are rinsed, the soap matter runs entirely away, leaving your clothes sweet, fresh and ready to wear.

See full ad of Sunlight Soap in our master magazine on the last evening of the year. For the details and a complete list of Sunlight Soap's many uses, see the master magazine on the last evening of the year.

Thousand Gypsy Fires Twinkled

Peak Day of St. Mary the
Virgin on Mount

By the Lake

(Associated Press Dispatch)

Dravograd, Sept. 26. — The old sanctuary in this village on the edge of the "Black Forest" was the gathering place for the day before yesterday of thousands of gypsies who arrived on horseback on dirt roads from all over the Balkans. The gypsies, who are now travelling all over the Balkans, had gathered here to celebrate the feast of the Virgin Mary, which the gypsies observe more devoutly than any other feast. The feast of the Virgin Mary is the most important of the gypsies' religious feasts, and it is celebrated with great pomp and circumstance. The gypsies arrived in the morning and camped in the woods around the sanctuary. They stayed there until the evening, when they lit fires and danced to the music of their tambourines and fiddles. The feast was a great success, and the gypsies were very happy.

By the Lake

It was then that the main event of the festival took place. The gypsies gathered around the sanctuary and watched as the priest performed the ceremony. The gypsies were very respectful and listened to the priest's words with attention. The ceremony was over in the evening, and the gypsies packed up their belongings and left. The festival was a great success, and the gypsies were very happy.

Around Her Home

Without suffering expense, a woman can have her home around her. The only way to do this is to have a home that is comfortable and convenient. The only way to do this is to have a home that is comfortable and convenient.

STARCH BORN OF A SORE NECK

History verifies the fact that the practice of starching, which came into fashion in England in the reign of Queen Elizabeth, was favored by a woman about the middle of the 16th century. She washed her neck with a solution of starch and water, and then dried it with a towel.

ANGLO-AMERICAN BLOCK

You can tell it by the smiles of older people—the delightful chuckles of the children—the merry twinkle in the eye of the only girl.

The spirit of sweetness enveloped in candy has made them all happy.

A sure way of making this day one to be remembered is with a box of chocolates. All the stores advertising on this page have a kind of candy that people like to get.

LAURA SECORD CHOCOLATES

Before Laura Secord Chocolates were sold in Belleville nearly every person who went to Toronto brought home a box of Laura Secord Candy. There were many good brands of chocolates sold here, but you know that the delicious wholesomeness of Laura Secord's would touch the heart of the receiver more thoroughly than any other brand.

There are several imitations that are "nearly as good," but they are only "nearly as good."

Fresh stock arrives Friday morning. Call early and get you box, as we are always sold out Saturday night.

Australians Like: Their "Lollies"

They Eat More Sugar Than
Any Other
People

The Australian is particularly fond of their "lollies" and all other forms of sweets. They eat more sugar than any other people—11 pounds per capita per annum. Yet Australia does not raise much of the sugar she consumes, although there is about more of land suitable for both beets and cane. In the southern and better part of the island continent there are to be thriving and profitable plantations of cane. But they have been so liberally agitated to preserve the principles of Australia that almost a whole Australian and a high standard of sugar.

ALWAYS KEPT SUGAR OFF SALOON BARS

Sugar has always been the enemy of the saloon. On the free lunch room of the saloon, as no man may avail himself of the saloon's lunch, so no man may avail himself of the saloon's sugar. The saloon is only a place to eat or drink, and the saloon is only a place to eat or drink. The saloon is only a place to eat or drink, and the saloon is only a place to eat or drink.

SUGAR AS A FOOD PRODUCES ENERGY

Sugar is a quick-acting, energy-producing food. It therefore comes more in demand as daily life speeds up. Its consumption might be said as a measure of the individual activity of a country. The United States stands at the head of the list in the amount of sugar used, \$210,337 tons in 1922. This is an increase of 12.12 per cent over the consumption in 1921.

The average time taken by a first class mail train to cross the country is 10 hours. It is a record for a country of 3,600 miles. It is a record for a country of 3,600 miles. It is a record for a country of 3,600 miles.

OLD CLAY PIPE CAUSER CANCER The old short clay pipe is disappearing and cancer of the lips has greatly decreased in Great Britain, according to a famous doctor.

The British overseas settlement, following the example of the British Army at Winchester, has distributed its "lollies" to the troops, and the result has been a decrease in the incidence of cancer.

large windows, it is a self-contained space and will be furnished with up-to-date furniture, and a glass enclosure facing the ocean, which will permit members to enjoy a clear view of the ocean's games while coming winter.

Underneath the club rooms is a large dining room, kitchen, furnace room, and boiler room. All of these rooms will be heated by steam.

The ceiling surface will comprise eight subjects of ice, exceptionally well lighted with two rows of windows down each side, one on the ground level, and the other higher up, raising the ceiling to 100 feet.

A complete system of electric lighting is to be installed.

Also, John A. McLean, president of the building committee, said that the building will be the largest of its kind in the world, and there is no doubt that it will be a symbol of the city's growth and progress. It will be the first of its kind in the city, and made of iron and steel, and will be the first of its kind in the city, and will be the first of its kind in the city.

Nearly 3,000 people are expected to be employed in the building, and the building will be the first of its kind in the city, and will be the first of its kind in the city.

The Road to Leisure

To enjoy your later years in comfort, you should provide yourself with a certain and independent income, free from the hazards of speculation or even of minor fluctuations. The easiest and surest means of acquiring such an income is to buy a Canadian Government Annuity.

Annuities are the only form you may buy by a Government Agency of any amount from \$50 to \$5,000 a year, commencing as early as you choose and may last for any number of years or until you die. You may also purchase the guaranteed interest of your annuity for a term of years certain. You may also purchase the interest of your annuity for a term of years certain.

SURREY—Because there is no salary investment that a Canadian Government Annuity offers, it is maintained by the Government to encourage the people of Canada to provide for their old age. You own it to yourself to help yourself.

These Annuities cannot be seized for debt, cannot be forfeited, and are free from Dominion Income Tax. For full particulars fill out and mail this Coupon.

Mail This Coupon—No Postage Needed

'Department of Labour, Annuities Branch, Ottawa, Ont.

Please send me the "Annals of Information" and full particulars of the Government Annuity Plan. I am enclosing the coupon which will be included in my next mailing. (Please whether Mr., Mrs. or Miss)

Sight Requires Attention in Youth

No child should be sent out into the world handicapped by a defect with its most insidious cause, can be overcome by a pair of glasses properly fitted at the proper time. Glasses will not remedy defects in eye-sight in when boys and girls are young.

It is a parent's duty to see that children's eyes are not defective.

Bring your child here. Our careful, scientific eye exam, without drugs, will make known exactly what attention is needed. Glasses will not be recommended unless they should be worn.

HONOR'S DISHONOR

(Reprinted from the Moderationist, 17th Oct., 1924)

In the main this campaign has been conducted on both sides with a dignity and fair-play which are highly commendable. Of course, have been made, but they are only to be expected, and the passion which comes from sincerity and conviction must be to be forgiven. There is, however, one action of the compulsory prohibitionists to which the strongest exception must be taken. That is, that in exhorting the public to vote their way they ask that this should be done for the honor of Old Ontario. The implication that the honor of the Province will be dishonored by a vote for Government Control, and that those who vote for Government Control have a less sense of honor than those who do not is in the highest degree reprehensible. It is also a silly lie, the stupidity of which is only mitigated by the fact that it can only receive a very small acceptance. Let us hear less of this matter of the honor of Old Ontario. It belongs to one party and adorns no point of view, but it may well be suspected of being least appreciated by those who prize most about it.

A PROHIBITIONIST THREAT

In their paid advertisements the Ontario Plebiscite Committee (a wilful misnomer, since the Moderation League of Ontario also has a plebiscite committee) gave as a reason for supporting them: A repeal of the O.T.A. and the introduction of government sale would launch the province into interminable and exceedingly costly law suits over the question of legal importation—litigation reaching right up to the Privy Council.

Who would launch this litigation? The Prohibition Party? Or the bootleggers? Obviously under Government Control no one else would have any interest in doing so. In the other Provinces which voted against importation "save for purposes made lawful by the laws of the Province" Government Control has stood unchallenged from this source. That is the best answer to all these self-conjured doubts.

Government Control is People's Control, and what the people want will be had, threat or no threat from the Plebiscite Committee.

Swell our majority by marking your X for Government Control as follows:

1. Are you in favor of the continuance of The Ontario Temperance Act?

2. Are you in favor of the sale of a beverage of beer and spirituous liquor in sealed packages under Government control?

A Woman's Soul
by Charles Garvice

CHAPTER I
SHE WAS THE FOOTLIGHT GIRL. She had a face that was not a face, but a thing of beauty. Her eyes were not eyes, but windows into a soul. Her hair was not hair, but a cascade of gold. She was a woman of a woman's soul.

Ever had
your eyes
examined?

If not, you cannot be sure of their condition. You may think they are about as they should be, when as a matter of fact they are not. In the latter case you are injuring them every day. What, then, let me remove all doubt for you. I have the experience and most expert equipment.

THE DOMINIO

THE BUILDING OF THE DOMINION

Before the Canadian Pacific

THINK of a Canada without Vancouver and Victoria! Without Winnipeg! Without the wonderful cities of the plains! Think of a Canada ending at Lake Huron; its commercial arm reaching feebly by steamer to the head of the lakes; the fertility of its plains growing fodder for buffaloes; its trade with the mighty West a traffic to beggars' bells.

That was Canada of the 'eighties.

walled colony on the Pacific and the older provinces of the East. Building the railroad across this unpopulated, unproductive continent was the supreme test of the growing nation's courage, its vision, and its resources. The Canadian Pacific was young Canada's answer to those who questioned her political future. By binding together her widely-scattered people, by uncovering the wealth of the continent, by opening the highway from the Orient to Europe, the Canadian Pacific laid the foundation of Canada's greatness. The achievements—and ideals—of the doerly Canadians of the 40's have been the basis of the nation's greatest works of national development carried on by the Canadian Pacific.

DO YOU KNOW that the Canadian Pacific has spent \$68,000,000 in colonization, in developing national resources and facilities and improving the agriculture of the country.

Bridge Was Destroyed For Picture Showing at Belle Monday

Producer Wallace Worley was heading a difficult location for the new "The Blue Ties" picture when the bridge was destroyed for the picture showing at Belle Monday.

A footbridge over a deep ravine was required. The bridge had to be in a dangerous position, so dangerous that it would collapse under the weight of a motor. A decision was reached that every year, with the exception of the bridge, a sturdy wooden bridge was used as a temporary measure.

The corner of the bridge was opposite the corner of the ravine and was demolished. Money could not tempt him to build a bridge, but he thought the time was to end in failure. William Farnum was to star in the picture and would almost be on the location for several days. The lady's face brightened.

"That is different," she exclaimed, "reversely, Mr. Farnum is one of my picture favorites. I'll try to get the picture here with his assistance."

And so, it was settled. Worley played and hauled with the bridge, but having the company audience, and not having the time to run the owner's car with feeling, the bridge was demolished several times.

Love William and Edna Horton are featured in support of Farnum in the picture, which will be shown next Monday at the Belle Theatre.

Real Detective To Be Portrayed In "Behind the Curtain" Coming to The Regent

It is not every picture which can boast a chief of police as technical adviser, but this is what Chester Franklin accomplished while illustrating "Behind the Curtain," International.

Constipated Children

Constipation is one of the most common ailments of childhood and the child suffering from it naturally will be nervous. To keep the little one well, the bowels must be kept regular and the child must be happy. The child is a small but thorough creature is pleasant to take and can be given the most reliable with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Bifocals Save
a Pair of Glasses

BIFOCAL glasses are those in which one lens is two light-acting surfaces—near vision through the top, and near vision through the bottom part. This makes one pair of glasses do the work of two—an obvious economy.

We are expert in fitting bifocal lenses. We can provide bifocals in which the dividing line is not visible—Kryptolens. Apparently they are one-piece lenses.

Come in and let us demonstrate Bifocals.

**Marriage, 19 Years
Old, Is Acne!**
The Man in the Case Was
Not Roman
Catholic

Montreal, Oct. 22.—A divorce under which occurred after the Queen's birthday celebration, the marriage of 19 years, was dissolved by the court today. The man in the case was not Roman Catholic.

The marriage was dissolved because the man, who was 40 years of age, had been granted to enter the clergy, the woman was 35 years of age, the court was satisfied that the man was not Roman Catholic.

Mr. Justice Gauthier, in his judgment, said that the man was not Roman Catholic, and that the woman was not Roman Catholic.

CITY VS. COUNTRY

Big Urban Vote Killed By
 Late Rural Returns

Today

With one poll not heard from in Sidney Township, Government has received 75,000 votes in the majority of 54. Belleville was the only place where the O.A. vote was not in the majority.

Though Belleville changed a majority of 1718 over to a Liberal majority of 54 at the previous vote yesterday, the total majority for the O.A. is the province and away last night's results.

On the contrary, the majority of 8,000 declared in statements of officials, of Belleville's majority and late returns confirmed yesterday.

There has been a great change in the vote in the city of Belleville, which was the only place where the O.A. vote was not in the majority.

Whiter, cleaner, safer teeth have only to fight the film

Accept this offer of a new way of teeth cleaning. It is delightful in its bringing them the premier teeth care you everywhere today.

It means vast benefits which your health should enjoy. Let us show them to you.

You leave film. You feel on your teeth the vicious film, ordinary tooth paste does not remove it. It is a sticky, slimy film, a vicious film, a vicious film, a vicious film.

Protect the Enamel. Popadent disintegrates the film, removes it with an action of a softener. Never use a chemical compound which contains harsh grains.

Two new methods. Dental science has in late years found two ways to fight this film. One disintegrates the film at the place of its formation. The other removes it without harmful abrasion.

These methods have proved themselves exceedingly effective. A new-type tooth paste has been
